EMBLEM Solvent Semi-Photo Paper Glossy

EMBLEM Solvent Semi-Photo Paper Glossy is a white high quality coated paper with a glossy surface. It is for printing with eco-solvent-, solvent-, UVC- and latex-based inks.

Matchcode:	SOSPPGL
Material:	coated paper
Finish:	glossy
Colour:	white
Weight:	220 g/m ²
Opacity:	> 98%
Lamination:	cool, warm
Application temperature:	+10°C to +30°C
Flame retardant:	no
Standard roll width:	54"
Standard roll length:	50 m
Durability:	short term application
Storage:	cool and dry environment, at 15-25°C, 50% rel. humidity
Shelf life:	24 month in original packing

COMPATIBLE INKS:

Eco solvent:	yes	UVC:	yes
Solvent:	yes	Latex:	yes

Different printers, inks, resolutions and printing qualities result into numerous different printing parameters. In addition, there are numerous factors influencing processing and the application of our materials. For this reason, we cannot make specific statements as to drying times and maximum ink absorption. For this reason, we recommend you to perform own tests in order to verify the desired results. Our product specifications are not to be understood as legally binding guarantees assuring specific characteristics. Any liabilities and guarantees, as well as claims for compensation beyond the value of the product itself are excluded.

EMBLEM Solvent Semi-Photo Paper Glossy

Description:

EMBLEM Solvent Semi-Photo Paper Glossy is a white high quality coated paper with a semi matt surface. It has a non reflecting surface and is for printing with eco-solvent-, solvent-, UVC- and latex-based inks. SOSPPGL supports high resolution print quality such as 780 x 1080 dpi. Because of these facts SOSPPGL is well suited for indoor poster application. The excellent surface provides a high colour saturation and extreme brilliant colours.

Processing:

EMBLEM Solvent Semi-Photo Paper Glossy permits a fast drying and short workflow and easy lamination. The complete drying time can vary according to the ink amount and the atmospheric conditions. We advice to unroll the printed strip and laid flat as soon as possible until final drying. The paper has an excellent stability and flatness.

Application:

Typical applications are photo realistic prints, shop window advertising, posters, presentations, signs and displays for indoor.
