

EMBLEM Glue Ex

EMBLEM Glue Ex features a high dissolving power and effectively removes adhesive residues, label residues, pigment inks, and fresh paint residues. Surfaces contaminated by oils, greases or separating agents can be cleaned. Forming emulsions or drawing oils can also be dissolved.

The cleaner does not require labelling under the CLP Regulation. (Classification, labelling and packaging regulation from the EU)

Product:	EMBLEM Glue Ex
Item no:	25648
Property:	reduced VOC
Hints:	After cleaning rinse with water
Other marking:	none
Cleaning focus:	Aqueous cleaner with VOC content of 34%, removes adhesives, labels, pigment colors, fresh paint residues, stoving residues, oils and fats
Cleaner property and containers:	clear liquid in spray bottle
Identification:	Classification of the substance or mixture classification in accordance with regulation (EC) No 1272/2008 [CLP]: None
Transport:	no dangerous liquid
Protective equipment:	 

The pH value is approx. 12.5. With its VOC content of 34% the non-flammable surface cleaner serves as an alternative to conventional solvents. It evaporates fast from the cleaned surface, leaving virtually basically also possible no residue.

- VOC Content: 34%
- Easy to use: spray it on directly and then wipe it off
- Phosphate free

EMBLEM

Field of application

- Particularly well suited for industrial applications
- Enormous dirt residues are dissolved efficiently by use in product manufacture or -preparation
- Can be used i.a. in degreasing prior to varnishing
- Removes adhesive residues, label residues, pigment inks, fresh paint residues, enamel residues, and releasing agents

Usage

EMBLEM Glue Ex is sprayed onto the surface which is to be cleaned. After a short exposure time, it can simply be wiped off with a cloth.
