Different printers, inks, resolutions and printing qualities result into numerous different printing parameters. In addition, there are numerous factors influencing processing and the application of our materials. For this reason, we cannot make specific statements as to drying times and maximum ink absorption. For this reason, we recommend you to perform own tests in order to verify the desired results. Our product specifications are not to be understood as legally binding guarantees assuring specific characteristics. Any liabilities and guarantees, as well as claims for compensation beyond the value of the product itself are excluded.

## EMBLEM Solvent RollUp PP Film

### Description:

EMBLEM SOROPPF is a tear-resistant polypropylene film with a special coating for solvent and eco-solvent inks.

The coating allows printing in brilliant photo quality, short drying time and high saturation.

SOROPPF is fully waterproof and most scratch resistant.

With SOROPPF you are able to achieve high-end presentation quality with bright colours and very good contrast. The prints are featured by minor reflections. The back side of SOROPPF is grey coated. The high opacity allows an unlimited use as rollup film.

### Processing:

To avoid fingerprints the use of cotton-gloves is advisable.

### Application:

RollUp displays, signs for in- and outdoor, POS advertisement, photo reproduction, displays
