Airpress Premium Mobile-Chrome

The automatic eyepress has a mobile desk for unlimited movability. The big storage container allows quick and easy processing of banners without loss of time.

Included in the delivery are tools for plastic- and chrome grommets which can be replaced easily by the user.

Wide range of application

You activate the compression with a start button to pierce the hole and inject the grommet in one process. So you get optimal results taking as little time and strain as possible

Speed without safety risk

A protection window around the tool reduces any risk of injury. An emergency stop is taken for granted, CE-proved certificate exists. Please remember that the needed compressor is not included in the delivery.

Flexible functionality and optimized working process

With the airpress premium mobile chrome you can handle a variety of PVC- banners from 400g to 1000g. Due to the automatic feeding you only have to position the banner and push the button-ready. The premium mobile chrome works quickly and precisely.
