Different printers, inks, resolutions and printing qualities result into numerous different printing parameters. In addition, there are numerous factors influencing processing and the application of our materials. For this reason, we cannot make specific statements as to drying times and maximum ink absorption. For this reason, we recommend you to perform own tests in order to verify the desired results. Our product specifications are not to be understood as legally binding guarantees assuring specific characteristics. Any liabilities and guarantees, as well as claims for compensation beyond the value of the product itself are excluded.

## EMBLEM Solvent Backlit & Poster Paper

### Description:

EMBLEM Solvent Backlit Paper is a white, semi matt paper for solvent based inks. Because of the homogeneous paper structure, it is an excellent media for lightbox applications. It is also usable for poster prints and superior prints because of it's high grammage and stiffness for indoor- and outdoor-use.

The specific surface permits a notable ink coverage and extreme brilliant colours. So it is the perfect media for superior prints.

### Processing:

To avoid fingerprints the use of cotton-gloves is advisable.

### Application:

Lightbox, posterprint
