Color:	white
Weight:	195 g/m ²
Thickness:	195 µm
Opacity:	98 %
Whiteness CIE:	140
Lamination:	cool, hot
Standard rolls width:	763 1067 / 1372 / 1524 / 1600 mm
Standard roll length:	50 m
Storage:	cool and dry environment, at 15 - 25 °C, 50 % rel. humidity
Shelf life:	24 month in original packing

COMPATIBLE INKS:

Eco Solvent:	yes	UVC:	yes
Solvent:	yes	Latex:	yes

Different printers, inks, resolutions and printing qualities result into numerous different printing parameters. In addition, there are numerous factors influencing processing and the application of our materials. For this reason, we cannot make specific statements as to drying times and maximum ink absorption. For this reason, we recommend you to perform own tests in order to verify the desired results. Our product specifications are not to be understood as legally binding guarantees assuring specific characteristics. Any liabilities and guarantees, as well as claims for compensation beyond the value of the product itself are excluded.

EMBLEM Solvent One For All Paper High White 200

Description:

EMBLEM Solvent One For All Paper High White 200 is ideal for high-quality poster applications that require brilliant colours. Its well-balanced paper volume offers a pleasant feel and versatile applications from POS posters to sophisticated photo prints. The wood and acid-free base paper guarantees long-lasting, stable paper white both indoors and in protected outdoor areas. The paper can be printed with commercially available eco-solvent, solvent, latex and UV inks and has proven its suitability for printers of the current latex generation. From an ecological point of view, the SOFAP series is environmentally friendly, PVC-free, chlorine-free and FSC-certified.

The 200g/m² bright white paper is perfect for indoor use and weather-protected displays, delivering vivid, colour-saturated and photorealistic images for posters and graphic reproductions. It offers excellent image quality with a beautiful bright white surface, vivid colours and a very fast drying time. It is also suitable for hot and cold laminating, FSC® (FSC-C119162) certified and acid and chlorine free. The gloss level is between 40 and 45, which ensures an attractive visual presentation.

Processing:

Unproblematic further processing due to good drying. It can be used in protected outdoor areas if it is not directly exposed to rain, snow and other weather conditions.

Prints should be covered with a laminate to protect them from abrasion. Insufficient drying of the prints can have a negative effect on the adhesive. It is also important to ensure that the print is completely dry and degassed before laminating, as otherwise bubbles may form under the laminate.

Application:

Posters, displays, POS, billboards, signage, indoor and outdoor advertising, exhibition graphics, commercial posters for indoor and outdoor applications.
