Different printers, inks, resolutions and printing qualities result into numerous different printing parameters. In addition, there are numerous factors influencing processing and the application of our materials. For this reason, we cannot make specific statements as to drying times and maximum ink absorption. For this reason, we recommend you to perform own tests in order to verify the desired results. Our product specifications are not to be understood as legally binding guarantees assuring specific characteristics. Any liabilities and guarantees, as well as claims for compensation beyond the value of the product itself are excluded.

EMBLEM Trend Tyvek Banner

Description:

EMBLEM Trend Tyvek Banner is a matt tearproof tyvek. It is a tough, synthetic banner - PVC free. The high tear resistance and the water resistant coating makes EMBLEM TTYV13 the ideal solution for short term outdoor posters, maps, labels and working plans if printed with pigmented inks. You can print on EMBLEM TTYV13 with common waterbased dye and pigment inks.

Processing:

Depending on ink and ink amount, an adequate drying time after printing should be allowed prior use. You achieve water resistant prints only with pigmented inks.

The material can be eyed. During the finishing you have to ensure that adequate tools are used. Furthermore it is necessary that eyes are placed in a distance which is proportionated to the expected wind load and own weight of the banner.

Storage temperatures of above 40°C should be avoided.

To avoid fingerprints the use of cotton gloves is advised.

Application:

Typical applications for EMBLEM TTYV13 are short-term advertising messages, outdoor posters, maps, labels, banners at fairground, working plans.
