

EMBLEM Eco Banner Block Out 330

EMBLEM Eco Banner Block Out 330 is a PVC free banner based on a polyester fabric. A black barrier layer provides a high opacity and prevents disturbing shining through even in bright light. It can be used for outdoor applications and can be printed with common eco solvent, solvent, latex and UV inks.

Matchcode:	EBABO330
Material:	coated polyester fabric, PVC free, with barrier layer
Finish:	semi matt
Color:	white, on both sides
Weight:	330 g/m ² ±5 %
Breaking strength:	1200 / 1100 N/5 cm ±5 %
Tear strength:	80 /68 N ±5 %
Fire behaviour:	class B1 for building materials - acc. DIN 4102-1
Standard rolls width:	1600 / 3200 mm
Standard roll length:	50 m
Storage:	cool and dry environment, at 15 - 25 °C, 50 % rel. humidity
Shelf life:	12 month in original packing

COMPATIBLE INKS:

Eco Solvent:	yes	UVC:	yes
Solvent:	yes	Latex:	yes

Different printers, inks, resolutions and printing qualities result into numerous different printing parameters. In addition, there are numerous factors influencing processing and the application of our materials. For this reason, we cannot make specific statements as to drying times and maximum ink absorption. For this reason, we recommend you to perform own tests in order to verify the desired results. Our product specifications are not to be understood as legally binding guarantees assuring specific characteristics. Any liabilities and guarantees, as well as claims for compensation beyond the value of the product itself are excluded.

EMBLEM Eco Banner Block Out 330

Description:

EMBLEM Eco Banner Block Out 330 is a PVC free banner based on a polyester fabric core. A black barrier layer provides a high opacity and prevents disturbing shining through even in bright light. The banner has a very even, fine structured surface and allows excellent printing results. It is printable on both sides with common eco solvent, solvent, latex and UV inks. The low-reflection, semi-matt banner can be used indoors and outdoors as it is flame retardant according to DIN 4102-1.

Due to the good flatness it can be used for displays and frame systems or freely hanging. The EMBLEM EBABO330 can be eyed and sewed.

Processing:

The material is eyeletable and sewable. For outdoor use, it must be ensured that the distance between the eyelets around the banner is appropriate to the expected load, e.g. from wind or the weight of the banner itself.

Application:

Typical applications are short to medium-term indoor and outdoor advertising messages.
