

Graphic Arts Collection Natural White Presentation Paper 245

The natural white, coated inkjet paper with 245 g/m² impresses with brilliant print quality and a pleasantly natural look - without any optical brighteners. With its wide colour gamut, high level of detail and instant drying, it is ideal for posters, presentations, graphics and POP/POS signage. The water-repellent, smooth and matt surface and perfect laminability make it a reliable partner for professional applications. Sustainably produced, FSC-certified and chlorine and acid-free.

Matchcode:	GACNWPP245
Material:	paper
Surface:	matt
Colour:	Natural white
Weight:	245 g/m ²
Thickness:	300 µm
Whiteness (CIE):	75 according to ISO 11475
CIE values:	L* 96.8 a* -0.1 b* +3.6
Opacity:	98% according to ISO 2471
Roll widths:	1067 mm
Roll length:	30 m
Storage:	cool and dry at 15-25 °C, 50 % rel. humidity
Shelf life:	24 months in the original packaging

COMPATIBLE INKS:

Dye:	yes	Latex:	yes
Pigment:	yes		

Different printers, inks, resolutions and printing qualities result into numerous different printing parameters. In addition, there are numerous factors influencing processing and the application of our materials. For this reason, we cannot make specific statements as to drying times and maximum ink absorption. For this reason, we recommend you to perform own tests in order to verify the desired results. Our product specifications are not to be understood as legally binding guarantees assuring specific characteristics. Any liabilities and guarantees, as well as claims for compensation beyond the value of the product itself are excluded.

Graphic Arts Collection Natural White Presentation Paper 245

Description:

This natural white, coated inkjet paper with 245 g/m² combines the highest print quality with sustainable production. Thanks to its natural white tone without optical brighteners, every printed image looks pleasantly authentic and impresses with its brilliant colour effect.

A particularly wide colour gamut, high optical density and precise colour boundaries ensure razor-sharp results - ideal for impressive posters, presentations, graphics or POP/POS signage. Instant drying and the water-repellent, smooth and matt surface make the paper particularly reliable in terms of both handling and further processing.

Whether hot or cold lamination - the paper retains its quality and stability. With its robust grammage of 245 g/m², a thickness of 300 µm and a high opacity of 98%, it impresses with its excellent feel and flatness. FSC-certified, acid- and chlorine-free - for sustainable printing without compromising on quality and performance.

Application:

Typical indoor applications include high-quality posters, presentations, graphics and POP/POS signage.

Product recommendation:

We recommend media from the EMBLEM laminate series for cold lamination.
