

EASY DOME

EASY DOME is simple to use.

Just print & cut your sticker.

Let them breathe for 48 hours

Place the dome above the sticker and let it drop.

DO NOT PRESS!

Let it sit for 3 seconds.

Turn the dome around and rub it from the inside out. The enclosed air shell disappear!

Your EASY DOME is ready!

— LEADING THE WAY —

EASY DOME

Up to now you had to pour your doming sticker very carefully, leave it to dry, and then remove air bubbles again with the blister remover.

This procedure is not only very time-consuming and laborious, but also more expensive, especially when working with larger editions.

Now, EasyDome offers you a quick, easy and low-priced solution for the production of doming stickers, including for use on larger editions.

EasyDome is a self-adhesive, clear doming sticker with a 3 dimensional domed surface which results in a top-quality finished view.

EASY-DOME is available in different shape and sizing.

Shape	Edge Radius	Size	Quantity
rund / round	Durchmesser / Diameter	25mm	288
rund / round	Durchmesser / Diameter	50mm	72
quadratisch / square	5mm	25mm	288
quadratisch / square	5mm	50mm	72
