Different printers, inks, resolutions and printing qualities result into numerous different printing parameters. In addition, there a numerous factors influencing processing and the application of our materials. For this reason, we cannot make specific statements as to drying times and maximum ink absorption. For this reason, we recommend you to perform own tests in order to verify the desired results. Our product specifications are not to be understood as legally binding guarantees assuring specific characteristics. Any liabilities and guarantees, as well as claims for compensation beyond the value of the product itself are excluded.

## EMBLEM Solvent One For All Paper Glossy 200

### Description:

EMBLEM Solvent One For All Paper Glossy 200 is a paper for commercial poster use when brilliant colors are a goal of the print. The papers of the SOFAP-Series are printable with standart eco solvent, solvent und UV inks. These papers are particularly easy to print in printers of the current latex generation. The base paper has a high water resistance and can be used indoors as well as outdoors.

With its special coating on the back EMBLEM SOFAPGL200 is protected against deformations caused by heat. The SOFAP-Series is very environmentally friendly as a pure paper product when seen from an ecological point of view. It is PVC free and FSC® certified.

### Processing:

Easy processing due to a fast drying process and great flatness. The material should not be exposed to rain. To protect prints, we advise you to laminate them. Before laminating make sure the material is done drying and outgassing otherwise it may come to little blisters under the laminate.

### Application:

Poster, displays, POS Signage, in and outdoor commercials, exhibiton graphics, commercial posters for in and outdoor use.
