Different printers, inks, resolutions and printing qualities result into numerous different printing parameters. In addition, there are numerous factors influencing processing and the application of our materials. For this reason, we cannot make specific statements as to drying times and maximum ink absorption. For this reason, we recommend you to perform own tests in order to verify the desired results. Our product specifications are not to be understood as legally binding guarantees assuring specific characteristics. Any liabilities and guarantees, as well as claims for compensation beyond the value of the product itself are excluded.

Trend Textil Banner Poly Water Resistant New Generation

Description:

EMBLEM TTBWF-NG is a hard-wearing, matt white polyester fabric for high-quality indoor and protected outdoor advertising banners. With a grammage of 285 g/m², it offers outstanding stability and brilliant printing results with dye or pigment inks. It is ideal for applications where a textile look and durability are important. The fabric is extremely tear-resistant, water-resistant and can therefore also be reliably used in critical locations. It is very easy to stretch and eyelet - ideal for banners, displays and exhibition trade fair graphics with a textile character.
