

EMBLEM Cleaner For Stainless Steel and Metal Surface

This EMBLEM cleaner is a highly effective water-based cleaning and care emulsion, especially for the cleaning and maintenance of matt and polished stainless steel. It also removes dust, fingerprints, oil, light lime scale- and flash rust residues from aluminum and chrome, non-ferrous metals, glass and plastics, ceramics and wood. The ready-to-use care product dries fast on the treated surface and leaves a touch-proof, gleaming and preserving protective film. This film has an anti-static effect and effectively protects the materials from fresh contamination. Printed or etched inscriptions (e.g. on kitchen appliances and elevators) will not be dissolved.

Product:	Cleaner for stainless steel and metal surfaces
Item no:	25646
Property:	reduced VOC
Hints:	After cleaning, rinse with soapy water
Other marking:	NSF - sign = Universal food industry food purifier
Cleaning focus:	for stainless steel, aluminum and non-ferrous metals, also glass and plastics. Removes dust, fingerprints, oil and light Limescale contamination

Cleaner property and containers:

White liquid in spray bottle

Identification:

Classification of the substance or mixture classification in accordance with Regulation (EC) No 1272/2008 [CLP]:
None

Transport:

No dangerous liquid

Protective equipment:

Field of application

- For the cleaning and care of matt and polished stainless steel
- For the care of aluminum, chrome, ceramics, wood, non-ferrous metals, glass and plastics
- Industrial kitchens and canteens in hotels, care facilities or hospitals
- Sanitary areas (e. g. Bathroom)

EMBLEM

Application

The special emulsion has been approved for cleaning and care of kitchen appliances and systems in industrial kitchens, breweries, dairy plants and other food-producing or processing companies. In such companies, cleaning and care is particularly required not only for optical but also for hygienic reasons. Surface treatment of finished metal components and of those that are in use helps retain their value. Parts will also be well protected for extended storage periods.

- Water-based
- Removes dust, fingerprints and oil
- Maintains metal surfaces, e.g. stainless steel
- Dries fast on processed surfaces
- No labelling required in accordance with the CLP Regulation
- Silicone-free
- VOC-free
- Just spray it on, distribute it evenly on the surface with a dry soft cloth or tissue, and wipe dry.
