

EMBLEM Walk On Sign C R Easy Bond

EMBLEM Walk On Sign C R Easy Bond is a textured, white, monomeric soft PVC film for printing with commercially available EcoSolvent, Solvent, Latex and UV inks. As floor advertising, the film can be used without laminate. The textured surface provides the anti-slip effect.

Matchcode:	WOSCREB
Material:	soft PVC film, monomeric
Finish:	textured, anti-slip surface
Color:	white
Thickness:	160 µm base film
Adhesive:	transparent, semi permanent acrylate adhesive
Liner:	single-sided siliconised PE liner, 140 g/m ² , structured
Adhesion:	8 N/25 mm - 24 h FINAT 1 (average value)
Adhesive weight:	30 g/m ²
Dimensional stability:	length: < -1,5 % (-4,0), ASTM D 1204 cross: < +0,5 % (±1,0), ASTM D 1204
Application temperature:	more than 10 °C
Anti-Slip property:	R 9 acc. DIN 51130
Standard rolls width:	1370 mm
Standard roll length:	30 m
Storage:	cool and dry environment, at 20 °C, 50 % rel. humidity
Shelf life:	12 month in original packing

COMPATIBLE INKS:

Eco Solvent:	yes	UVC:	yes
Solvent:	yes	Latex:	yes

Different printers, inks, resolutions and printing qualities result into numerous different printing parameters. In addition, there are numerous factors influencing processing and the application of our materials. For this reason, we cannot make specific statements as to drying times and maximum ink absorption. For this reason, we recommend you to perform own tests in order to verify the desired results. Our product specifications are not to be understood as legally binding guarantees assuring specific characteristics. Any liabilities and guarantees, as well as claims for compensation beyond the value of the product itself are excluded.

EMBLEM Walk On Sign C R Easy Bond

Description:

Floor advertising with EMBLEM Walk On Sign II gets the full attention of the visitors by colour-intensive prints. A fast and cost-efficient production can be realized with the Walk On Sign II, because a lamination after printing is not necessary. The semi-permanent adhesive allows a good repositioning when applying the film and an easy removal at the end of the advertising campaign.

The Walk On Sign II is certified slip-resistant according to DIN 51130 and achieved the rating class R9 in the test. The product can therefore be used as floor advertising in shopping centres and supermarkets, depending on local requirements. The advertising message can be used indoors for up to 3 months - depending on the degree of stress. The increased amount of adhesive and the high tack component allows bonding on many surfaces, even if the surface structure is not perfectly flat.

The product is REACH and RoHS compliant.

Processing:

The film can be easily removed from many surfaces. Please test the adhesion on the desired surface.

Bonding is carried out on flat surfaces. The substrate to be bonded must be thoroughly cleaned of dirt, dust, grease, etc. We recommend a compatibility test between the substrate and the adhesive.

After printing it is necessary to wait for an outright drying and fumigation of the print to avoid diffusion of solvents.

To avoid fingerprints the use of cotton gloves is advised.

Application:

Typical applications are floor advertising on smooth surfaces in inner areas, such shopping centres, supermarkets, entrance areas, railway stations, airports, ...
