Different printers, inks, resolutions and printing qualities result into numerous different printing parameters. In addition, there are numerous factors influencing processing and the application of our materials. For this reason, we cannot make specific statements as to drying times and maximum ink absorption. For this reason, we recommend you to perform own tests in order to verify the desired results. Our product specifications are not to be understood as legally binding guarantees assuring specific characteristics. Any liabilities and guarantees, as well as claims for compensation beyond the value of the product itself are excluded.

EMBLEM Solvent Textile Banner Heavy FR

Description:

EMBLEM SOTBHEFR is a flame-retardant cloth especially made for solvent based inks.

Associated with the satin-finishing this media allows high quality prints with extra intensive colors and very good contrasted wind load and own weight of the banner.

The material is sewable and can be eyed. During the finishing you have to ensure that adequate tools are used. Furthermore it is necessary that eyes are placed in a distance which is proportionated to the expected wind load and own weight of the banner.

To avoid fingerprints the use of cotton gloves is advised.

Application:

Banners at Fairground, Stage decoration, Outdoor-Banners
