Weave:	2:1
Finish:	matt
Color:	white
Weight:	350 g/m ² ± 5%
Standard roll width:	24", 36", 42", 44", 50", 54", 60"
Standard roll length:	15 m
Storage:	cool and dry environment, at 15-25°C, 50% rel. humidity
Shelf life:	12 month in original boxes

COMPATIBLE INKS:

Dye:	yes	Latex:	yes
Pigment:	yes		

Different printers, inks, resolutions and printing qualities result into numerous different printing parameters. In addition, there are numerous factors influencing processing and the application of our materials. For this reason, we cannot make specific statements as to drying times and maximum ink absorption. For this reason, we recommend you to perform own tests in order to verify the desired results. Our product specifications are not to be understood as legally binding guarantees assuring specific characteristics. Any liabilities and guarantees, as well as claims for compensation beyond the value of the product itself are excluded.

EMBLEM Water Nature Cotton Canvas 350

Description:

EMBLEM WANAC350 is a one side coated canvas made out of 100% cotton textile with a natural structured surface. The waterproof microporous coating is elastic and best fit for use onto stretcher frames. The matt surface enables brilliant and reflection reduced colourful reproductions.

The back side of the textile is natural coloured. The coated surface can slightly vary because of the natural raw fibre from the cotton. Little differences in colour can occur from lot to lot.

Processing:

WANAC350 can be sewn, but should not be folded.

When using dye inks, the printed image must protected against gas fading with varnish or liquid lamination product. WANAC350 is acid-free.

Please take care about the smear resistance because in some cases inks with high percentage of black carbon become blurred easily.

The main field of application for canvas is indoor.

A too high air humidity can affect the flatness of the product. This could lead to malfunctions in the printing process and thus alter the printed image. For this reason WANAC350 should only be removed from its original packing directly before printing and stored in its original packing in a cool and dry environment.

To avoid fingerprints the use of cotton-gloves is advisable.

Application:

Typical applications are art reproductions, high-end photographs, theatre and cinema decoration indoor.
