

Graphic Arts Collection Solvent Natural White Paper 270

EMBLEM Graphic Arts Collection Sol Neutral White Paper 270 is a high-quality, heavyweight inkjet art paper with a semi-matt finish, designed for digital art reproductions, photo books and high-quality indoor poster applications. The medium offers excellent colour reproduction, fast drying and a smooth, even surface. Developed for solvent, eco-solvent, latex and UV inks. The paper is acid-free and FSC®-certified.

Product code:	GACSONWP270
Material:	coated, acid-free paper
Finish:	semi-matt
Colour:	white
Thickness:	270 g/m ²
Opacity:	> 98 %
Lamination:	cold, hot
Processing temperature:	+10 °C to +30 °C
Fire behaviour:	not certified
Standard roll widths:	1067 mm
Standard roll length:	30 m
Storage:	cool and dry at 15–25 °C, 50% relative humidity
Shelf life:	24 months in original packaging

SUITABLE INKS:

Eco-solvent:	yes	UVC:	yes
Solvent:	yes	Latex:	yes

Different printers, inks, resolutions and printing qualities result into numerous different printing parameters. In addition, there are numerous factors influencing processing and the application of our materials. For this reason, we cannot make specific statements as to drying times and maximum ink absorption. For this reason, we recommend you to perform own tests in order to verify the desired results. Our product specifications are not to be understood as legally binding guarantees assuring specific characteristics. Any liabilities and guarantees, as well as claims for compensation beyond the value of the product itself are excluded.

Graphic Arts Collection Solvent Natural White Paper 270

Description:

EMBLEM Graphic Arts Collection Sol Neutral White Paper 270 is a professional inkjet paper with a basis weight of 270 g/m², specifically designed for demanding applications in digital art and photographic reproduction. The semi-matt coated surface strikes a perfect balance between brilliant colour reproduction and reduced glare.

Thanks to its fast drying time, this medium is ideal for efficient production processes. The uniform, smooth surface ensures precise detail sharpness, homogeneous colour areas and high-quality print results of the highest standard. The paper is acid-free and FSC®-certified, thereby also meeting environmental standards.

GACSONW270 is ideally suited for use with solvent, eco-solvent, UV, latex and UV inks and is used in high-quality indoor applications such as art prints, poster production and photo books.

Processing:

EMBLEM Graphic Arts Collection Sol Neutral White Paper 270 dries quickly and is ideal for further processing and lamination. However, the drying time also depends on the amount of ink used. When printing from roll to roll, the printed web should be unrolled as quickly as possible and laid flat so that the ink can fully out-gass. To avoid fingerprints, we recommend using cotton gloves. The paper is extremely sturdy and lies flat.

Application:

Production of photorealistic prints, shop fittings, signage, displays, art prints, posters and photo books.
